

## SWAT 539 Triple Tree Bag Mounting Instructions

**Step 1:** This bag can be mounted on virtually any handle bar style. (Risers or triple tree style)

**Step 2:** Place over risers and hold bag tightly against the risers while you work the velcro straps around the handle bar.

**Step 3:** Repeat for both sides. The bag should not be able to move and should sit securely on the risers.

**Step 4:** Do not over load this bag. It is meant for keys and other small effects.

**Step 5:** Note that straps should be on the outsides of the risers.
